6. ELIGIBILITY OF ITEMS SOLD

Producers Market:

The New Bedford Farmers Market is a producers market, meaning that all items sold must be locally produced/grown by the vendor themselves, also known as a Class A market. Locally grown shall mean the following: all pruning, spraying, fertilizing, and harvesting of fruits and vegetables is undertaken by members of the seller's household or persons directly employed and paid by the seller. This may include items grown on land under written lease or license, provided that the farmer who leased the land undertakes all of the previous activities.

The following are exceptions to these rules and are subject to approval on a case by case basis. The decision to allow an exception to the Producers Market/Class A rule will be determined by the participating farmers at the market where the items are sold. The Market Assistant/Managers will oversee the decision making process:

- i. If no other vendor is selling a product, they may be bought in from another *local RI/MA* producer, subject to approval by participating market farmers and the Market Managers. ***The source & location of these items MUST be clearly labeled at the vendor booth (name of producer/location) and communicated to customers.***
- ii. Items bought-in from other local RI/MA producers can only be sold after other vendors are done selling what they grew (for example, people who buy in local MA/RI blueberries can't sell them until all other vendors who are growing their own blueberries are sold). We stress clear communication between vendors during this process!
- iii. Items not commercially produced/available locally (i.e. olive oil) may be allowed at the market at the discretion of the Market Manager.

Processed Foods & Goods:

These items can be sold at the market if:

- i. These products are made by the vendor locally in Massachusetts/Rhode Island.
- ii. These products must be considered appropriate to be sold at the market by the Market Managers. Saleable items may include, but are not limited to: prepared and specialty foods such as jam, jellies, sauces, salsas, vinegar, chocolates, coffee, baked goods, seafood, and any other items deemed appropriate by the Market Managers
- iii. The vendor's kitchen must have been inspected by the local Health Department yielding a retail kitchen permit to sell that particular product.
- iv. The New Bedford Board of Health has approved the vendor's product line and application.
- v. The vendor has taken a two-hour food handling safety course where applicable or Food Manager Certification as required by the local health department.
- vi. A copy of all applicable permits and fee has been submitted to the New Bedford Health Dept before selling these products at the Market. The Health Dept. will inspect the vendor on the first day of the market, or other arrangements per the Health Department. Permits must be displayed at the market by the vendor.
- vii. No processed foods or goods may be purchased by the vendor and resold at the Market in its original state.
- viii. Each package or container of processed foods must be clearly labeled with the

following: 1) Name of the vendor that produced the item 2) Product name 3) List of all ingredients

Inventory of items:

All persons desiring to sell goods at the market must submit of **comprehensive** inventory list (through the online application) of items to be sold at the market. This list must also include where each item is sourced (i.e. if buying in blueberries from a local farm, please indicate the name of the farm and location). The list will be reviewed with the application and a final list will be approved by the Market Manager.

- i. If this list changes throughout the season, **the vendor is responsible for sending an updated list to the Market Manager.** The Market Assistant will work with vendors for compliance.

Farm/Business Visits:

An Inspection Committee shall be made up of any interested participating farmers, and in no case fewer than two farmers. All new farmers who participate in the New Bedford Farmers Markets must agree to an onsite inspection. Previous farmers- who have been inspected in the past, do not need to be inspected unless another farmer/vendor requests it and approved by the Market Managers. Two farmers and the Market Assistant will perform onsite farm inspections at least once during the season to ensure compliance with the Producers Market/Class A eligibility.

7. VENDOR SPACE, PLACEMENT

Space:

Vendors shall be given a space of 10' x 10" and if the vendor requires more space, please indicate this on the online application for approval by the Market Manager. Vendors are placed on the vendor map according to the Market Assistant using seniority and placement in previous seasons among other criteria; every effort is made to keep placement consistent throughout the season. Please be advised that ultimately it is up to the Market Assistant that day to make the final decision on where vendors will be located and this can change from market to market based on which vendors are present, and/or other activities happening that day.

This is a vendor driven market and therefore take feedback from vendors very seriously. If a vendor feels uncomfortable or concerned with a current vendor's selling, growing, harvesting, or producing practices, please notify the Market Managers immediately so action can be taken. The Market Managers will conduct interviews with vendors and if they find any violations against a vendor, the market vendors will take appropriate action.

Any failure to abide by the Market Rules will be subject to disciplinary action in the following process:

- i. Each vendor is allowed two excusable offenses of the Market Rules, and the third offense shall be deemed sufficient grounds for excluding the vendor from the market for the remainder of the market season with no refund of vendor fees.
 - a. 1st offense: The vendor will receive a written warning detailing which Market Rule was violated.
 - b. 2nd offense: The vendor will receive a copy of the first offense violated and will receive a new document detailing the 2nd offense violated in the Market Rules.
 - c. 3rd offense: The vendor will receive a detailed document of the 1st and 2nd offenses along with the 3rd offense violated in the Market Rules. The vendor will be placed on a 2-week probation period from the market to allow for the Market Manager to discuss these violations with other vendors. The Market Managers and vendors will take a majority vote on whether or not to terminate the vendor from the market. Termination from the market season will result in no refund of vendor fees.
 - d. Consideration for re-entering the next year's market season will be determined by the Market Manager on a case by case basis and with feedback from other market vendors. If approved for reentry, the vendor will be on a probationary period to be decided to the Market Manager.
- ii. Any person may submit a written grievance regarding the operation of the market or potential violation of the rules and regulations to the Market Manager. The Market Manager will review the grievance in accordance to the Market Rules.
